CONTENTS IN BRIEF

PART 1 INTRODUCTION 1

Chapter 1 Modern Economics • 3
Chapter 2 Thinking Like an Economist • 25

PART 2 PERFECT MARKETS 51

Chapter 3 Demand, Supply, and Price • 53
Chapter 4 Using Demand and Supply • 77
Chapter 5 The Consumption Decision • 101
Chapter 6 The Firm's Costs • 131
Chapter 7 The Competitive Firm • 155
Chapter 8 Labor Markets • 175
Chapter 9 Capital Markets • 191
Chapter 10 The Efficiency of Competitive Markets • 215

PART 3 IMPERFECT MARKETS 237

Chapter 11 Introduction to Imperfect Markets • 239
Chapter 12 Monopoly, Monopolistic Competition, and Oligopoly • 261
Chapter 13 Government Policies Toward Competition • 289
Chapter 14 Strategic Behavior • 311
Chapter 15 Imperfect Information in the Product Market • 333
Chapter 16 Imperfections in the Labor Market • 355

PART 4 ISSUES IN PUBLIC POLICY 373

Chapter 17 The Public Sector • 375
Chapter 18 Environmental Economics • 405
Chapter 19 International Trade and Trade Policy • 423
Chapter 20 Technological Change • 453

PART 5 INTRODUCTION TO MACROECONOMICS 471

Chapter 21 Macroeconomics and the Economic Perspective • 473
Chapter 22 Measuring Output and Unemployment • 485
Chapter 23 The Cost of Living and Inflation • 509

PART 6 FULL-EMPLOYMENT MACROECONOMICS 523

Chapter 24 The Full-Employment Model • 525
Chapter 25 Government Finance at Full Employment • 547
Chapter 26 The Open Economy at Full Employment • 567
Chapter 27 Growth and Productivity • 585
Chapter 28 Money, the Price Level, and the Federal Reserve • 605

PART 7 MACROECONOMIC FLUCTUATIONS 635

Chapter 29 Introduction to Macroeconomic Fluctuations • 637
Chapter 30 Aggregate Expenditures and Income • 661
Chapter 31 Aggregate Demand and Inflation • 689
Chapter 32 The Federal Reserve and Interest Rates • 715
Chapter 33 The Role of Macroeconomic Policy • 727

PART 8 THE GLOBAL ECONOMY 755

Chapter 34 The International Financial System • 757
Chapter 35 Policy in the Open Economy • 779
Chapter 36 Development and Transition • 793

PART 9 FURTHER TOPICS IN MACROECONOMICS 817

Chapter 37 Inflation and Unemployment • 819
Chapter 38 Controversies in Macroeconomic Policy • 837
Chapter 39 A Student's Guide to Investing • 865

CONTENTS

PREFACE XXXV

PART 1 INTRODUCTION 1

CHAPTER 1 MODERN ECONOMICS 3

INTERNET CONNECTION: Tracking the Digital Economy 6
What Is Economics? 6
Trade-offs 7
Incentives 8
THINKING LIKE AN ECONOMIST: Incentives and the Price of AOL 9
Exchange 10
INTERNET CONNECTION: Auction Sites 11
Information 13
Distribution 14
The Three Major Markets 15
Keeping Track of Tricky Terms 16
Microeconomics and Macroeconomics: The Two Branches of Economics 17
The Science of Economics 18
Discovering and Interpreting Relationships 18
Causation and Correlation 19
Why Economists Disagree 19
REVIEW AND PRACTICE 21

CHAPTER 2 THINKING LIKE AN ECONOMIST 25

The Basic Competitive Model 25
Rational Consumers and Profit-Maximizing Firms 26
Competitive Markets 27
e-INSIGHT: Markets, Exchange, and e-Commerce 27
Efficiency and Distribution in the Basic Competitive Model 28
The Basic Competitive Model as a Benchmark 28
Incentives and Information: Prices, Property Rights, and Profits 29
Incentives Versus Equality 31
When Property Rights Fail 31
Alternatives to the Price System 32
Opportunity Sets and Trade-Offs 34
Budget and Time Constraints 34
The Production Possibilities Curve 35
Costs 37
Opportunity Costs 38
THINKING LIKE AN ECONOMIST: Trade-Offs 39
INTERNET CONNECTION: Internet Resources for Economists 40
CASE IN POINT: The Opportunity Cost of Attending College 40
Sunk Costs 42
Marginal Costs 43
INTERNET CONNECTION: The Economists' Voice 43
REVIEW AND PRACTICE 45
APPENDIX: Reading Graphs 47
Slope 48
Interpreting Curves 49

PART 2 PERFECT MARKETS 51

CHAPTER 3 DEMAND, SUPPLY, AND PRICE 53

The Role of Prices 53
Demand 54
The Individual Demand Curve 54
The Market Demand Curve 55
Shifts in Demand Curves 57

Sources of Shifts in Demand Curves 57
CASE IN POINT: Gasoline Prices and the Demand for SUVs 59
Shifts in a Demand Curve Versus Movements along a Demand Curve 60
FUNDAMENTALS OF DEMAND, SUPPLY, AND PRICE 1: Demand Declines as Price Rises 61
Supply 61
e-INSIGHT: The Demand for Computers and Information Technology 62
Market Supply 64
Shifts in Supply Curves 65
Sources of Shifts in Supply Curves 65
Shifts in a Supply Curve Versus Movements along a Supply Curve 67
FUNDAMENTALS OF DEMAND, SUPPLY, AND PRICE 2: Supply Increases as Price Rises 67
Law of Supply and Demand 67
Using Demand and Supply Curves 69
Consensus on the Determination of Prices 70
FUNDAMENTALS OF DEMAND, SUPPLY, AND PRICE 3: The Market Clears at the Equilibrium Price 71
Price, Value, and Cost 70
INTERNET CONNECTION: The Demand and Supply in the Oil Market 71
REVIEW AND PRACTICE 72

CHAPTER 4 USING DEMAND AND SUPPLY 77

The Price Elasticity of Demand 77
Price Elasticity and Revenues 79
The Determinants of the Elasticity of Demand 80
The Price Elasticity of Supply 82
INTERNATIONAL PERSPECTIVE: Comparing Reactions to the Oil Price Shock of 2000 83
Using Demand and Supply Elasticities 85
Shortages and Surpluses 88
Interfering with the Law of Supply and Demand 90
THINKING LIKE AN ECONOMIST: Incentives and the Window Tax 90
Price Ceilings 91
CASE IN POINT: Rent Control in New York City 93

Price Floors 93
INTERNET CONNECTION: Flawed Deregulation 94
Alternative Solutions 94
REVIEW AND PRACTICE 96
APPENDIX: Elasticity and Slope 98

CHAPTER 5 THE CONSUMPTION DECISION 101

The Basic Problem of Consumer Choice 101
The Budget Constraint 102
Choosing a Point on the Budget Constraint: Individual Preferences 104
What Happens to Consumption When Income Changes? 105
CASE IN POINT: The Fate of the BTU Tax 107
INTERNET CONNECTION: What We Consume 109
A Closer Look at the Demand Curve 109
Deriving Demand Curves 110
The Importance of Distinguishing Between Income and Substitution Effects 111
THINKING LIKE AN ECONOMIST: Incentives, Income Effects, and Substitution Effects 112
Utility and the Description of Preferences 113
Consumer Surplus 117
Looking Beyond the Basic Model 118
How Well Do the Underlying Assumptions Match Reality? 118
Behavioral Economics 119
REVIEW AND PRACTICE 122
APPENDIX: Indifference Curves and the Consumption Decision 124
Using Indifference Curves to Illustrate Consumer Choices 124
Indifference Curves and Marginal Rates of Substitution 126
Using Indifference Curves to Illustrate Choices 127
Using Indifference Curves to Derive Demand Curves 128
Substitution and Income Effects 128

CHAPTER 6 THE FIRM'S COSTS 131

Profits, Costs, and Factors of Production 132
Production with One Variable Input 132
Types of Costs and Cost Curves 135

Short-Run and Long-Run Cost Curves 141
Short-Run Cost Curves 142
Long-Run Cost Curves 142
INTERNET CONNECTION: Economic Definitions 146
Production with Many Factors 146
Cost Minimization 147
The Principle of Substitution 147
CASE IN POINT: The Principle of Substitution and Global Warming 148
Economies of Scope 150
REVIEW AND PRACTICE 151

CHAPTER 7 THE COMPETITIVE FIRM 155

Revenue 155
Costs 156
INTERNET CONNECTION: Firms' Profit-and-Loss Statements 157
Basic Conditions of Competitive Supply 158
Entry, Exit, and Market Supply 160
Sunk Costs and Exit 161
The Firm's Supply Curve 162
The Market Supply Curve 163
Long-Run Versus Short-Run Supply 164
e-INSIGHT: The 2001 Recession: Cutbacks Versus Shutdowns 165
Accounting Profits and Economic Profits 166
Opportunity Costs 166
Economic Rent 168
CASE IN POINT: Entering the Painting Business and Opportunity Costs 169
The Theory of the Competitive Firm 171
REVIEW AND PRACTICE 172

CHAPTER 8 LABOR MARKETS 175

The Labor Supply Decision 175
INTERNET CONNECTION: Labor Force Data 176
The Choice Between Leisure and Consumption 176
Labor Force Participation 179
THINKING LIKE AN ECONOMIST: Trade-Offs 179
Firms and the Demand for Labor 181
Factor Demand 182

From the Firm's Factor Demand to the Market's Factor Demand 184
Labor Supply, Demand, and the Equilibrium Wage 184
REVIEW AND PRACTICE 186
APPENDIX: Indifference Curves and the Labor Supply Decision 188
Deciding Whether to Work 188

CHAPTER 9 CAPITAL MARKETS 191

Supply in the Capital Market 191
The Household Decision to Save 192
THINKING LIKE AN ECONOMIST: Wealth Distribution and Interest Rates 197
INTERNET CONNECTION: Household Saving 198
CASE IN POINT: Why is the U.S. Saving Rate So Low? 198
Demand in the Capital Market 200
A Behavioral Perspective on Saving 202
Education and Human Capital 203
e-INSIGHT: Financing the New Economy 205
Education and Economic Trade-Offs 206
The Basic Competitive Model 206
REVIEW AND PRACTICE 207
APPENDIX A: Indifference Curves and the Saving Decision 209
Deciding How Much to Save 209
Changing the Interest Rate 210
APPENDIX B: Calculating Present Discounted Value 211

CHAPTER 10 THE EFFICIENCY OF COMPETITIVE MARKETS 215

Competitive Markets and Economic Efficiency 216
Consumer and Producer Surplus 217
FUNDAMENTALS OF COMPETITIVE MARKETS 1: Households and Firms are Price Takers 218
FUNDAMENTALS OF COMPETITIVE MARKETS 2: The Equilibrium Price Maximizes Consumer Plus Producer Surplus 219
INTERNET CONNECTION: Digital Economist 219
Taxes and Efficiency 220
Efficiency 221
Pareto Efficiency 222

Conditions for the Pareto Efficiency of the Market Economy 222
THINKING LIKE AN ECONOMIST: Exchange and Distribution 224
Competitive Markets and Pareto Efficiency 225
FUNDAMENTALS OF COMPETITIVE MARKETS 3: The Competitive Market Economy is Pareto Efficient 225
Competitive Markets and Income Distribution 225
General Equilibrium Analysis 227
The Basic Competitive Equilibrium Model 227
THINKING LIKE AN ECONOMIST: Indirect Trade-Offs and Air Safety for Children 228
CASE IN POINT: The Labor Market and the Widening Wage Gap 230
CASE IN POINT: The Minimum Wage and General Equilibrium 231
General Equilibrium Over Time 232
When Partial Equilibrium Analysis Will Do 234
Looking Beyond the Basic Model 234
REVIEW AND PRACTICE 235

PART 3 IMPERFECT MARKETS 237

CHAPTER 11 INTRODUCTION TO IMPERFECT MARKETS 239

Extending the Basic Competitive Model 240
FUNDAMENTALS OF IMPERFECT MARKETS 1: Imperfect Markets Lead to Market Failures 242
Imperfect Competition and Market Structure 242
Price and Quantity with Imperfect Competition 244
Government Policies 245
INTERNET CONNECTION: The Federal Trade Commission 245
INTERNATIONAL PERSPECTIVE: Trade and Competition 246
FUNDAMENTALS OF IMPERFECT MARKETS 2: Imperfect Competition 246
Imperfect Information 247
The Information Problem 247
How Big a Problem? 247

How Prices Convey Information 248
Markets for Information 249
e-INSIGHT: Information, Competition, and the Internet 249
Government Policies 250
FUNDAMENTALS OF IMPERFECT MARKETS 3: Imperfect Information 251
Externalities 252
Government Policies Toward Externalities 252
THINKING LIKE AN ECONOMIST: Incentives and the Environment 253
FUNDAMENTALS OF IMPERFECT MARKETS 4: Externalities 254
Public Goods 254
FUNDAMENTALS OF IMPERFECT MARKETS 5: Public Goods 255
Looking Ahead 256
REVIEW AND PRACTICE 257

CHAPTER 12 MONOPOLY, MONOPOLISTIC COMPETITION, AND OLIGOPOLY 261

Monopoly Output 261
An Example: The ABC-ment Company 264
Monopoly Profits 265
Price Discrimination 266
Economies of Scale and Natural Monopolies 267
INTERNATIONAL PERSPECTIVE: South Africa, AIDS, and Price Discrimination 268
Assessing the Degree of Competition 270
Number of Firms in the Industry 270
Product Differentiation 271
e-INSIGHT: Network Externalities, the New Economy, and Monopoly Power 272
Equilibrium with Monopolistic Competition 273
Oligopolies 274
Collusion 275
Restrictive Practices 279
Entry Deterrence 281
INTERNET CONNECTION: Keeping Track of Oligopolies 281

THINKING LIKE AN ECONOMIST: Trade-Offs, American Airlines, and Predation 283
The Importance of Imperfections in Competition 284
REVIEW AND PRACTICE 285

CHAPTER 13 GOVERNMENT POLICIES TOWARD COMPETITION 289

The Drawbacks of Monopolies and Limited Competition 289
Restricted Output 289
Managerial Slack 291
Reduced Research and Development 291
Rent Seeking 292
Further Drawbacks of Limited Competition 292
e-INSIGHT: Using the Internet to Enhance Price Discrimination 293
Policies Toward Natural Monopolies 293
Public Ownership 294
Regulation 295
Encouraging Competition 296
INTERNATIONAL PERSPECTIVE: The Darker Side of Privatization 296
CASE IN POINT: California Electricity Deregulation 298
Antitrust Policies 299
Limiting Market Domination 300
Defining Markets 301
INTERNET CONNECTION: U.S. Department of Justice and Antitrust Laws 301
THINKING LIKE AN ECONOMIST: Incentives and the Remedy to the Microsoft Monopoly Problem 302
Curbing Restrictive Practices 304
Enforcing the Antitrust Laws 305
CASE IN POINT: Coke and Pepsi Play Merger 306
REVIEW AND PRACTICE 308

CHAPTER 14 STRATEGIC BEHAVIOR 311

Review of the Prisoner's Dilemma 312
Dominant Strategies 313

Nash Equilibrium 313
Strategic Behavior in More General Games 316
Games With Only One Dominant Strategy 316
INTERNATIONAL PERSPECTIVE: Beggar-Thy-Neighbor Tariff Policies 317
Games Without Dominant Strategies 318
INTERNET CONNECTION: The Zero-Sum Game Solver 319
Repeated Games 320
Reputations 321
Tit for Tat 321
INTERNET CONNECTION: The Prisoner's Dilemma 321
Institutions 322
CASE IN POINT: Banking Panics 322
Sequential Moves 324
THINKING LIKE AN ECONOMIST: Information and Thinking Strategically 326
Time Inconsistency 326
Commitment 327
REVIEW AND PRACTICE 329

CHAPTER 15 IMPERFECT INFORMATION IN THE PRODUCT MARKET 333

The Market for Lemons and Adverse Selection 333
Signaling 335
Judging Quality by Price 336
The Incentive Problem 337
Market Solutions 337
Contract Solutions 338
Reputation Solutions 339
The Market for Health Insurance 340
CASE IN POINT: Buying Health Insurance 341
The Search Problem 342
THINKING LIKE AN ECONOMIST: Incentive and Information Problems in the Housing Market 343
e-INSIGHT: Information Technology and Middlemen 344
INTERNET CONNECTION: Job Search 345
Search and Imperfect Competition 345
Search and the Labor Market 346

Search and Information Intermediaries *346*
Advertising 347
Advertising and Competition *348*
Advertising and Profits *348*
The Importance of Imperfect Information 350
REVIEW AND PRACTICE 351

CHAPTER 16 IMPERFECTIONS IN THE LABOR MARKET 355

Labor Unions 355
A Brief History *356*
INTERNET CONNECTION: Unions on the Internet 358
Economic Effects *359*
Limits on Union Power *360*
Wage Differentials 362
Discrimination *363*
Motivating Workers 364
Piece Rates and Incentives *365*
Efficiency Wages *366*
CASE IN POINT: Minimum Wages 367
Other Incentives *368*
Compensating Workers *368*
e-INSIGHT: Labor Markets and the Internet 369
REVIEW AND PRACTICE 371

PART 4 ISSUES IN PUBLIC POLICY 373

CHAPTER 17 THE PUBLIC SECTOR 375

Why Does the Government Intervene in the Economy? 377
INTERNATIONAL PERSPECTIVE: The Size of Government in Different Countries 377
Equity-Efficiency Trade-Offs *380*
e-INSIGHT: The New Economy and Inequality 381
The U.S. Tax System in Practice 381

Characteristics of a Good Tax System 382
The Scope of the U.S. Tax System 383
Grading the U.S. Tax System 383
Transfers 386
Welfare 387
Housing 388
Social Insurance 389
Designing Government Programs 390
Government Failures 391
Incentives and Constraints 392
Budgeting and Spending Procedures 393
Imperfections of Information 393
Collective Decision Making 394
Current and Recent Controversies in the Economics of the Public Sector 395
Dealing With the Deficit 395
Social Security 396
Health Care 398
INTERNET CONNECTION: Policy Analysis 400
REVIEW AND PRACTICE 401

CHAPTER 18 ENVIRONMENTAL ECONOMICS 405
Negative Externalities and Oversupply 405
Policy Responses to Problems in the Environment 407
Property Rights Responses 407
INTERNATIONAL PERSPECTIVE: Global Warming 408
THINKING LIKE AN ECONOMIST: Environmental and Economic Trade-Offs 410
Regulation 410
Taxes and Subsidies 412
The Marketable Permit Response 413
CASE IN POINT: Reducing Acid Rain 414
Weighing the Alternative Approaches 415
Natural Resources 416
INTERNET CONNECTION: The National Center for Environmental Economics 416
e-INSIGHT: Information and the Environment 418
Merit Goods and the Environment 418
REVIEW AND PRACTICE 419

CHAPTER 19 INTERNATIONAL TRADE AND TRADE POLICY 423

Trade Between Countries 423
Interdependence in the Product Market 424
Interdependence in the Labor Market 424
Interdependence in the Capital Market 425
Multilateral Trade 425
Comparative Advantage 426
INTERNET CONNECTION: David Ricardo 427
Production Possibilities Curves and Comparative Advantage 427
Comparative Advantage and Specialization 428
e-INSIGHT: The United States' Comparative Advantage in the Internet Age 429
What Determines Comparative Advantage? 430
The Perceived Costs of International Interdependence 432
THINKING LIKE AN ECONOMIST: Exchange and the Globalization Controversy 432
Trade Policies 434
Commercial Policy 434
Tariffs 435
Quotas 436
Voluntary Export Restraints 436
Other Nontariff Barriers 437
"Fair Trade" Laws 437
INTERNATIONAL PERSPECTIVE: Surrogate Countries and Canadian Golf Carts 438
Political and Economic Rationale for Protection 439
Displaced Firms and Workers 440
Beggar-Thy-Neighbor Policies 441
Wages in Affected Sectors 442
Increased Competition 442
THINKING LIKE AN ECONOMIST: Distribution and Trade Liberalization 443
The Infant Industry Argument 443
e-INSIGHT: Trade Liberalization in Information Technology and Financial Services 444
Strategic Trade Theory 445
International Cooperation 445
GATT and the WTO 445

The Growing Protest Against the WTO 446
CASE IN POINT: The Banana War 447
Regional Trading Blocs 448
INTERNET CONNECTION: The World Trade Organization 449
REVIEW AND PRACTICE 450

CHAPTER 20 TECHNOLOGICAL CHANGE 453
Links Between Technological Change and Imperfect Competition 454
e-INSIGHT: The New Economy and Innovation 455
Patents and the Production of Ideas 455
THINKING LIKE AN ECONOMIST: Intellectual Property Rights and Distribution 456
The Trade-Off Between Short-term Efficiency and Innovation 457
CASE IN POINT: Eli Whitney and the Cotton Gin 460
R & D as a Fixed Cost 460
Learning by Doing 461
Access to Capital Markets 462
Schumpeterian Competition 463
Basic Research as a Public Good 464
Government Promotion of Technological Progress 465
Subsidies 465
Protection 466
Relaxing Antitrust Policies 466
INTERNET CONNECTION: Competitiveness 468
Technological Change and Economic Growth 468
REVIEW AND PRACTICE 469

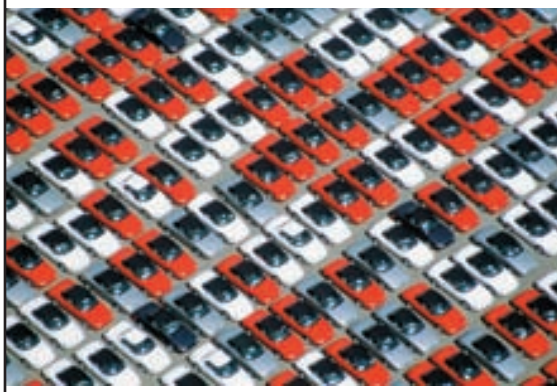
PART 5 INTRODUCTION TO MACROECONOMICS 471

CHAPTER 21 MACROECONOMICS AND THE ECONOMIC PERSPECTIVE 473
The Commitment to Full Employment and Growth 474
Getting the Country Moving Again 477
Stagflation 477
The Conquest of Inflation 478

Government Deficits and Trade Deficits 479
Getting the Economy Moving (Again) 479
New Challenges 480
The Three Key Goals of Macroeconomic Performance 481
A Look Ahead 482
REVIEW AND PRACTICE 483

CHAPTER 22 MEASURING OUTPUT AND UNEMPLOYMENT 485

Measuring Output and Growth 485
Gross Domestic Product 486
Measuring GDP: The Value of Output 489
INTERNET CONNECTION: The Bureau of Economic Analysis 489
CASE IN POINT: Is Software a Final Good or an Intermediate Good? 491
Potential GDP 494
INTERNATIONAL PERSPECTIVE: What Gets Measured in the GDP? 495
Problems in Measuring Output 496
Measuring the Standard of Living 497
A Green GDP 497
Unemployment 498
Unemployment Statistics 499
Forms of Unemployment 500
Output Gaps and the Natural Rate of Unemployment 503
Flows and Stocks 505
REVIEW AND PRACTICE 506



CHAPTER 23 THE COST OF LIVING AND INFLATION 509

The Costs of Inflation 509
Who Suffers from Inflation 510
The Economy 511
The Costs of Deflation 512
CASE IN POINT: Hyperinflation in Germany in the 1920s 512
Measuring Inflation 514
INTERNET CONNECTION: Improving Our Measure of the CPI 516
CASE IN POINT: The Price Index Makes a Difference 516

Alternative Measures of Inflation 517
INTERNET CONNECTION: The Inflation Calculator 517
e-INSIGHT: Measuring the Price and Quantity of Software 518
The American Experience with Inflation 519
REVIEW AND PRACTICE 521

PART 6 FULL-EMPLOYMENT MACROECONOMICS 523

CHAPTER 24 THE FULL-EMPLOYMENT MODEL 525

Macroeconomic Equilibrium 526
The Labor Market 527
Shifts in the Demand and Supply of Labor 529
CASE IN POINT: Mass Migration in the Nineteenth Century 531
e-INSIGHT: Labor Markets and the Internet 532
The Product Market 532
Potential GDP 533
Demand and Equilibrium Output 534
The Capital Market 536
Household Saving 536
Investment 537
Equilibrium in the Capital Market 538
The General Equilibrium Model 540
Using the General Equilibrium Model 541
REVIEW AND PRACTICE 543

CHAPTER 25 GOVERNMENT FINANCE AT FULL EMPLOYMENT 547

The Composition of Spending and Taxes 548
Extending the Basic Full-Employment Model 548
Adding the Government 549
The Government and the Capital Market 549
Leakages and Injections 554
INTERNATIONAL PERSPECTIVE: Deficits in Other Countries 555
THINKING LIKE AN ECONOMIST: Distribution, Deficits and Intergenerational Transfers 556

Evaluating Government Deficits and Surpluses 557
Government Deficits and Surpluses: Our Recent Experiences 558
Factors Affecting the Federal Budget 561
Risk Factors for the Federal Budget 562
REVIEW AND PRACTICE 563

CHAPTER 26 THE OPEN ECONOMY AT FULL EMPLOYMENT 567

The Open Economy 568
The Capital Market in the Open Economy 568
The Basic Trade Identity 572
INTERNET CONNECTION: U.S. Trade Data 573
CASE IN POINT: The Trade Deficit 574
e-INSIGHT: High-Tech Exports and Imports 576
Exchange Rates 577
THINKING LIKE AN ECONOMIST: Net Exports and the Exchange Rate 579
Is the Trade Deficit a Problem? 580
REVIEW AND PRACTICE 583

CHAPTER 27 GROWTH AND PRODUCTIVITY 585

Rising Standards of Living 586
Explaining Productivity 589
INTERNET CONNECTION: How Fast Is Modern Economic Growth? 590
The Capital Stock and the Role of Saving and Investment 590
The Quality of the Labor Force 592
The Reallocation of Resources from Low- to High-Productivity Sectors 592
Technological Change and the Role of Ideas 593
Total Factor Productivity: Measuring the Sources of Growth 596
CASE IN POINT: Calculating Total Factor Productivity in the 1990s 597
e-INSIGHT: Computers and Increased Productivity Growth 598
FUNDAMENTALS OF GROWTH: Growth in the Economy's Labor Force, Growth in the Economy's Capital Stock, Technological Change 599

Are There Limits to Economic Growth? 600
THINKING LIKE AN ECONOMIST: Trade-Offs and the Costs of Economic Growth 601
REVIEW AND PRACTICE 602

CHAPTER 28 MONEY, THE PRICE LEVEL, AND THE FEDERAL RESERVE 605

Prices and Inflation 606
Money Demand 607
Money Supply 609
The Price Level 609
INTERNET CONNECTION: How Much Cash Do We Hold? 610
The Financial System in Modern Economies 612
CASE IN POINT: When Atlanta Printed Money 614
Creating Money in Modern Economies 615
Money Is What Money Does 615
Measuring the Money Supply 617
Money and Credit 618
CASE IN POINT: "Boggs Bills" and the Meaning of Money 619
The Money Supply and the Bank's Balance Sheet 620
THINKING LIKE AN ECONOMIST: Exchange, Money, and the Internet 620
How Banks Create Money 622
e-INSIGHT: Electronic Cash 623
The Federal Reserve 626
How the Fed Affects the Money Supply 628
INTERNET CONNECTION: The Federal Reserve Banks and International Central Banks 629
The Stability of the U.S. Banking System 630
Reducing the Threat of Bank Runs 631
REVIEW AND PRACTICE 633

PART 7 MACROECONOMIC FLUCTUATIONS 635

CHAPTER 29 INTRODUCTION TO MACROECONOMIC FLUCTUATIONS 637

Economic Fluctuations 638
INTERNET CONNECTION: Dating Business Cycle Peaks and Troughs 642
CASE IN POINT: Estimating the Output Costs of a Recession 642
THINKING LIKE AN ECONOMIST: Employment Fluctuations and Trade-Offs 643
Why Economies Experience Fluctuations 643
Nominal Versus Real Wages 645
The Slow Adjustment of Nominal Wages 645
The Slow Adjustment of Prices 645
THINKING LIKE AN ECONOMIST: Information and Measuring the Business Cycle 647
Understanding Macroeconomic Fluctuations: Key Concepts 648
Sticky Wages 649
FUNDAMENTALS OF FLUCTUATIONS 1: Sticky Wages 649
Sticky Prices 649
e-INSIGHT: Cyclical and Structural Productivity 650
FUNDAMENTALS OF FLUCTUATIONS 2: Sticky Prices 651
Inflation and Adjustment 652
FUNDAMENTALS OF FLUCTUATIONS 3: Short-Run Inflation-Unemployment Trade-Off 653
Inflation, Monetary Policy, and Spending 653
FUNDAMENTALS OF FLUCTUATIONS 4: Inflation, Monetary Policy, and Spending 655
CASE IN POINT: Inflation Targeting 655
Linking the Four Key Concepts 656
REVIEW AND PRACTICE 657

CHAPTER 30 AGGREGATE EXPENDITURES AND INCOME 661

Income-Expenditure Analysis 661
The National Income-Output Identity 663
Equilibrium Output 663
Shifts in the Aggregate Expenditures Schedule 664
Mathematical Formulation 665
A Look Forward 666
Consumption 667
Disposable Income 667
Expectations of Future Income 671
Wealth 671
Investment 672
Investment and the Real Interest Rate 673
Inventory Investment 674
Macroeconomic Implications of Investment 675
Government Purchases 676
Net Exports 676
Exports 678
Imports 678
Macroeconomic Implications 679
Putting International Trade into the Equation 680
Calculating Equilibrium Output 681
Aggregate Expenditures and the Real Interest Rate 683
THINKING LIKE AN ECONOMIST: Incentives and the Real After-Tax Rate of Interest 684
REVIEW AND PRACTICE 685

CHAPTER 31 AGGREGATE DEMAND AND INFLATION 689

The Real Interest Rate and the Capital Market 690
The Aggregate Demand–Inflation Curve 691
The Fed's Policy Rule 692
What Can Shift the ADI Curve? 694
INTERNATIONAL PERSPECTIVE: How Do Other Central Banks React to Inflation? 696
Other Factors That Can Shift the ADI Curve 696
Using the ADI Curve 697
Output Effects of a Shift in the ADI Curve 698
CASE IN POINT: The Volcker Disinflation 700

An Expansionary Shift in the ADI Curve 701
CASE IN POINT: The Kennedy Tax Cut 701
THINKING LIKE AN ECONOMIST: Tough Trade-Offs 703
Macroeconomic Policy and Shifts in the ADI Curve 703
Shifts in the Inflation Adjustment Curve 704
Changes in Energy Prices 704
CASE IN POINT: Oil Price Shocks of the 1970s 705
A Shift in Potential GDP 705
CASE IN POINT: The 1990s 707
e-INSIGHT: Productivity Growth and the Punch Bowl 708
INTERNET CONNECTION: The FOMC 710
REVIEW AND PRACTICE 711

CHAPTER 32 THE FEDERAL RESERVE AND INTEREST RATES 715

The Federal Funds Market 715
A Day at the Trading Desk 716
The Demand for Reserves 718
The Supply of Reserves 719
Open Market Operations 719
Equilibrium in the Federal Funds Market 720
Monetary Policy Operating Procedures 721
Inflation, Money Supply, and the Nominal Rate of Interest 722
REVIEW AND PRACTICE 724

CHAPTER 33 THE ROLE OF MACROECONOMIC POLICY 727

Inflation-Unemployment Trade-Offs 728
The Old Inflation-Unemployment Trade-Off 728
The New Trade-Off: Output Stability–Inflation Stability 429
Fiscal Policy 729
Automatic Stabilizers 729
Discretionary Policy Actions 731
